

TELFAIR ACTS

And the June Primary for Senator Is Again Endorsed.

THAT TALKED-OF MEETING

About Which the Gold Standard Organs Have Said So Much.

MR. DUBIGNON SPOKE THERE YESTERDAY

Other News of State Politics—The Hall County Committee Provides for an Expression from the People.

McRae, Ga., May 14.—(Special).—The democratic committee of Telfair will vote upon their choice for United States senator and they will cast their votes at a primary to be held on June 6th.

The much talked of meeting of the county executive committee of Telfair was held here this morning, and the result of it was an endorsement of the former action of the committee, which had provided for a consolidation of all primary action on June 6th.

During the past two weeks the gold standard organs of the state—particularly the "official organ" at Atlanta—have had much to say about the intentions of the Telfair committee to meet and rescind its former action. These reports were declared to be untrue at the meeting of the committee, which was attended by but a few members of the committee; that these members filled two vacancies illegally, and that the majority of the committee was opposed to a senatorial primary in June.

At the request of some members of the committee, another meeting was ordered for today. Mr. Dubignon was announced for a speech at the same time, and the call for the meeting of the committee was widely circulated with the bills announcing the coming of the senatorial aspirant from Chatham. The official organ and its followers were so much surprised at the prospect of another meeting of the committee that they have been boasting of their intentions to repudiate the former action of the committee. It was urged by the gold standard people that if they could make Telfair rescind they could use the action of this county as a lever in bringing about a similar change in other counties. And so they regarded this as a most auspicious day in their campaign.

At half past 10 o'clock this morning the committee met at the courthouse. The two vacancies on it had been filled by elections in the districts where the vacancies occurred, but some things happened that the gold people had not counted. These districts selected strong silver men to represent them, showing clearly that the people of Telfair are for bimetalism.

The committee was not in session very long, as it was not necessary. By a vote of six to three the former action of the committee was indorsed, and the effort to postpone action on the senatorship failed.

The result was a dampener on the gold standard crowd. They had been making their boasts all over the state and were greatly chagrined by their defeat.

MR. DUBIGNON'S SPEECH.

Perhaps this had some effect on the spirits of the gold standard people who went to hear Mr. Dubignon shortly afterwards. The speaking was out of doors and Mr. Dubignon's friends here had made preparations for a big crowd. This failed to materialize. There were less than two hundred people present at the speaking and many of these were bimetalists who went there out of curiosity. There was a notable lack of enthusiasm, and which was manifested by the fact that a small portion of the audience.

You may put Telfair down in the Crisp column.

MADISON FOR HOWARD.

The Eighth District Candidates Are on the Move.

Danielsville, Ga., May 14.—(Special).—Colonel Howard and Congressman Lawson spoke at Five Forks, in this county, today, and to-morrow they met at Comer and at Carrollton. On Tuesday they began their campaigning in this county, speaking to a large crowd, despite the other appointments.

The debate here was a highly interesting one.

Under agreement between the candidates, Mr. Howard opened in an hour, followed by Judge Lawson in an hour and fifteen minutes, and closed by Mr. Howard in fifteen minutes.

The discussions were solid arguments from the beginning; no frills and fireworks. Mr. Howard began the debate in his calm, deliberate, confident fashion, held the attention of the crowd from the first sentence, and held it throughout, and was frequently interrupted by applause from almost the entire audience. He proved himself master of his subject. His propositions were clear cut, and the humblest hearer could understand him.

Judge Lawson had a respectful hearing through one of the strongest speakers ever heard on his side of the question here, and had occasional applause from his followers, who, however, could almost have been counted on your fingers.

It was plainly apparent that strong as he is in debate he failed to satisfactorily meet the great speech that confronted him. Mr. Howard's conclusion was powerful, and much of his few minutes was taken away by the enthusiastic applause of the people, and it was some time before he could leave the courthouse for the hearty

hand-shaking and congratulation of the voters.

There were several present from adjoining counties who had never heard Mr. Howard on the stump. They went away delighted with his speech, and convinced that he is not only a full match for Judge Lawson, but that he is the equal of any man in the state on the stump.

Broad minded, deep thinking, well posted, fair self possessed, Mr. Howard convinced the people that he is fully able to take care of himself in debate anywhere. Madison county is for him for congress.

HALL DOES NOT CHANGE.

The Committee Met at Gainesville and Affirmed Its Former Actions.

Gainesville, Ga., May 14.—(Special).—The democratic executive committee of Hall county met in the superior courtroom at 11 o'clock today in response to a call by H. H. Board, chairman.

At its meeting on the 7th day of April primaries were called for the 4th day of June to elect delegates to the county convention to be held on the 6th of June for the purpose of nominating county officers, members of the general assembly, delegates to the thirty-third senatorial convention and to the gubernatorial convention.

Some dissatisfaction was caused on account of the action and the chairman was asked to call a meeting of the committee and who is a candidate for re-election to the office of clerk of the superior court, the committee reaffirmed its former action. On motion the committee ordered that the county primary be held on the 27th day of June and that the people be authorized to express their wishes in regard to United States senator at the October election.

NEW COTTON MILLS BUILDING

THE MANUFACTURERS' RECORD SHOWS A GOOD RECORD.

In the South There Was a Steady Expanding on a Solid Basis, the Paper Says.

Baltimore, Md., May 14.—The Manufacturers' Record, a weekly summary of southern industrial news, reports that, notwithstanding the efforts of cotton mill companies to curtail production on account of the market conditions, the organization of new mills goes on without abatement.

During the week new mill enterprises have been projected, including a \$2,000,000 company at Douglasville, Ga.; a \$125,000 company at Austin, Tex.; a \$300,000 company to establish a mill at Memphis, Tenn.; a \$250,000 company at Monroe, La.; the proposed enlargement of a Charleston mill at an expenditure of about \$100,000 and an addition of 2,500 spindles to a mill at Forest City, N. C.

Among other important enterprises for the year have been the organization of an English company with a capital of \$500,000 to purchase large iron works at Mid-diesborough, Ky., and put them in early operation. A projected bicycle factory at Atlanta has materialized by the incorporation of a company with \$100,000, which will establish the first bicycle works south of the Potomac.

At Richmond, Va., a sixty-ton cotton mill will be the largest of its kind in the south. A \$200,000 ice and cold storage plant at Hillsboro and a \$1,000,000 waterworks company at Richmond, Va.

These reports show that there is considerable expansion in business matters and complaint of dullness in some lines, yet on the whole the outlook is bright throughout the south seems to be steadily expanding on a solid basis, and the outlook is favorable for continued growth in leading industries, such as cotton, but a more general diversification of manufacturing industries.

Mr. Herman Frasch, of the Standard Oil Company, writes to the Manufacturers' Record that the extensive development of sulphur in Louisiana under the process recently introduced for this work has been successful, and that an annual output of 100,000 tons per day is now being made, the quality sulphur product being 90 per cent. This extensive sulphur production has been achieved by Mr. Rockefeller and others, and will greatly increase the income of Louisiana from Sicily showed that the sulphur producers were watching with great interest the operations in Louisiana, and the curtailment of exports of Sicilian sulphur, which has been the Louisiana developments be successful.

WHITE ACQUITTED.

He Shot a Negro Cab Driver Dead Last February.

Jacksonville, Fla., May 14.—William M. White, charged with the murder of a negro cab driver in Jacksonville, Fla., was acquitted today by a jury in the circuit court here. White was charged with the murder of a negro cab driver in Jacksonville, Fla., who was killed last February. The jury returned a verdict of acquittal.

At the time of the killing White was drinking and hired the negro to drive him home. Twenty-five cents was the legal fare, and when White refused to pay, he fired a shot which killed the negro. White was charged with the murder of the negro, but the jury found him not guilty.

At the time

FOR MACON'S GOOD.

The Swamp Below the City to Be Drained at Once.

THE WORK HAS BEEN DELAYED

By Objections of Owners of Property Through Which the Canal Was To Have Been Run.

Macon, Ga., May 14.—(Special.)—The county commissioners will go to work at once to drain the river swamp below the city, a work which is vastly important to the health of the city, and which has been hanging fire for several years past.

The commissioners recently undertook this work and were stopped by an objection from Mr. Napier, through whose land the canal had to run. It was then necessary to change the route of the canal and secure new grants of right-of-way, which has been done. The commissioners today made demand on Superintendent Paschal for half of the county convicts, and these will be put to work Saturday cleaning the right-of-way. The actual work of digging the canal will begin Monday. It will require about twelve months to finish the work.

W. Lawrence Henry Paralyzed.

For the fifth time within the past week one of Macon's prominent citizens has been suddenly stricken with paralysis. This time it is Mr. St. Lawrence Henry, one of the largest meat dealers of the city and a prominent man in local affairs. Mr. Henry was stricken about 10 o'clock this morning while standing in his private office talking to a friend. He now lies in a very precarious condition.

An Important Change.

Today's session of the grand lodge of Ancient Order of United Workmen was devoted to the discussion of a proposition to change the present beneficiary system of the order and adopt in its stead what is known as the Illinois system. The entire day was consumed in discussing this matter, but no action was taken. The details of the system proposed are known only to the members and they are not disposed to make them public. The grand lodge will be in session until tomorrow afternoon, when it will adjourn. The present session has been a most satisfactory one, so the delegates all say.

Tom Allen's Case.

Colonel J. W. Treason, attorney for Tom Allen, the condemned murderer, feels almost confident that he will be able to secure a hearing for his client before the supreme court, although Allen now stands condemned to die on May 23, and his case has been dismissed by the supreme court.

Allen's attorneys have changed their tactics somewhat. Heretofore Howard C. Glenn, of Atlanta, will leave for Washington city to present a petition to the supreme court. He will ask for a supersedeas until the point at which he will be asked to prepare a writ. Allen has not had a constitutional trial inasmuch as his case was decided by a majority of the supreme court while he was a fugitive from justice, an act which is contrary to the constitution. It is simply a rule established by the court itself. Allen, however, feels that he will have a fair trial.

Debs Left Night.

Eugene W. Debs, the labor agitator, arrived in Macon this afternoon on a train from Atlanta and will speak at the Academy of Music tonight to a large audience composed of laboring men and citizens generally. His address was a temperate presentation of labor's cause, and the audience was highly responsive. He left at night, despite the incapacity and inaction of his nominal committee men who had been in the city for several days. Efficient work is in progress in Kentucky and the laboring men are expected to arrive in the city in the near future.

Dropped Dead.

Will Dugan, a negro man, dropped dead this morning on the corner of North street. He was seemingly in good health, and died suddenly as he stepped into his garden.

Colored Pythians.

The colored Knights of Pythias of Georgia will hold their annual convention at Albany on July 17, and arrangements for the event are already being made. Several hundred delegates are expected to attend. Cheap rates will be made on all roads.

Concert by the Blind.

An interesting concert was given at the Georgia Academy for the Blind by the pupils tomorrow night. The concert is for the benefit of the school and the city of the schools, the proceeds to be used in buying new books.

A Great Excursion.

One of the largest crowds that ever went out of Macon on an excursion left this morning for a special train to the annual picnic of the Macon division of the Order of Railway Conductors. The excursion was made up of the Macon division of the Order of Railway Conductors. The excursion was made up of the Macon division of the Order of Railway Conductors. The excursion was made up of the Macon division of the Order of Railway Conductors.

To Fruit Growers.

The following circular will be sent to fruit growers tomorrow:

"Macon, Ga., May 15.—To the Fruit Growers of Georgia: The consolidation of small shipments of fruit into car loads at Macon is a matter of great importance to the fruit grower. It is a matter of great importance to the fruit grower. It is a matter of great importance to the fruit grower."

FIGHT WILL FOLLOW

Street Committee Breaks on the Paving Bids.

IT CAUSES A BIG SPLIT

Contract for Repaving Whitehall and Marietta Streets Let to Venable Bros.—Minority Report Filed.

At the next session of the city council there is prospect for a lively fight over the contract for repaving Whitehall and Marietta streets. The street committee has let the contract to Venable Bros., repaving 15 cents; new pavement, \$1.25; curbing, 10 cents.

This fight was presaged yesterday afternoon when the street committee was called together to consider the bids opened before them at the last meeting. These bids were as follows:

E. W. Cook, repaving 10 cents; new pavement, \$1.25; curbing, 10 cents.

J. N. Hazbush, repaving per square yard, 15 cents; new pavement per square yard, \$1.25; resurfacing curbing per lineal foot, 10 cents.

W. R. Mayer, repaving 20 cents; new pavement, \$1.25; curbing, 10 cents.

A. W. Hammond, repaving 15 cents; new pavement, \$1.25; curbing, 10 cents.

Venable Bros., repaving 10 cents; new pavement, \$1.25; curbing, 10 cents.

"I believe," said Mr. Culbertson, "that this would show the lowest bid. I think that it will be best for the interest of the city and for all parties concerned."

Mr. Culbertson said that the city had in the past executed many contracts with the Venables and he thought they were the best parties to take hold of the work.

"If of agricultural character, all things considered," put in Mr. Mayson.

"I do not mean to say that the work will not be done in the best possible manner by the Venables," insisted Mr. Culbertson, "but I say that it will be best for the city, under the present conditions, to accept the lowest bid."

Mr. Culbertson had prepared the whole costs, showing that A. W. Hammond was the lowest bidder. In round numbers three bids amount to:

W. R. Mayer, \$547.00
Davis Smith, \$547.00
J. N. Hazbush, \$547.00
W. R. Mayer, \$547.00

Mr. Culbertson said that he was in favor of accepting the bid of Mr. Hammond. This matter was discussed at some length and was called and Venable Bros. won out by a vote of two to one.

Messrs. Adams, Colvin and Mayson cast their votes in favor of turning the contract over to the Venables. The ordinance for paving was passed up by the council many weeks ago. Granite blocks are to be laid on Whitehall from Trinity avenue to railroad and on Marietta street from Peachtree to Walton.

A lively fight is promised before the council.

Adverse to Richardson.

The ordinance to pave Richardson street was taken up by the committee, but it was found that from the original petition a number of names had been withdrawn and the ordinance was defeated.

In addition to this a number of protests were filed. An adverse report was rendered.

As to Grady's Statue.

Concerning the removal of Henry Grady's statue there was informal discussion. It was found that the committee had been taken from its place on Marietta street and placed on the corner of Peachtree and Walton.

"I do not think," said Chairman Hutchinson, "that the friends of Grady wish to move it. They wish to leave it where it is."

"Ten people will see it where it is," said Mr. Morris and afterwards by Chairman Hutchinson, "I believe it is best to leave it where it is."

"The question of increasing the tax on coal dealers was taken up yesterday afternoon by the tax committee, but no action was taken. The tax will be deferred until the first meeting of the committee in June."

Mr. George P. Howard and several other well-known dealers were before the committee, but discussion of the matter was postponed.

TIFTON'S NEW ROAD.

The formal opening will take place next week.

Tifton, Ga., May 14.—(Special.)—The formal opening of the Tifton and Northeastern railroad will take place on Tuesday, May 19th. The Georgia Southern and Tifton and Northeastern roads have been running twice per day to the foot of Main street at Fitzgerald.

DESIRE IT REMOVED.

Objections to the Site of the National Quarantine Station.

Brunswick, Ga., May 13.—(Special.)—Surgeon R. E. L. Burford, in his last annual report, has recommended that another site be chosen for the national quarantine station at this point further removed from the city and the line of the passage of the daily boats playing between Brunswick, St. Simon's and Jekyll islands and adjacent points, since he does not consider the present site sufficiently isolated as to fully eliminate all source of danger from proximity to the line of passing boats, and the channel being narrow and on the side nearest the river.

The site of the present station is an artificial island, made from the accumulation of ballast. It is 1,000 feet in length and 300 feet in breadth, with an average height of six feet above the level of high tide. It is situated upon the north side of Oglethorpe bay, three miles east of the city limits, being in a line almost direct between the city and the ocean bar, and it is separated from the mainland by two miles of soft marsh, which is covered by water at high tides.

This line of marsh is divided by Plantation creek, a wide stream of water, which makes it impossible for any one to reach the station from any part of the mainland without the use of boats. The station is equipped with the latest improved disinfecting machinery, consisting of fumigating sulfur fumes, with automatic steam disinfecting chamber, vacuum pump, chloroform and fresh water tanks and steam pump for the application of disinfecting solution and is connected to a supply of both fresh and sea water.

In action to this it has a hoisting engine, ballast cars and track for discharging ballast of vessels and another ballast car to be furnished with equal facilities being provided for by congress and is now being constructed.

The personnel of the station from May 1st to November 1st, when it is to be complete, consists of Surgeon Burford, the officer in charge, one nurse, one boatman, one cook and laundress and one janitor.

The engineer and boatman do the work of disinfecting the crews of vessels not being quarantined. Surgeon Burford is in the quarantine to see that no communication occurs from one vessel to another or from the shore to the station.

Mr. Culbertson says that he has been caught on forbidden ground during the quarantine season would be detained and subject to public health and subjected to the rules governing crews at the station, which means at least seven days' isolation and the disinfection of body and clothing.

Surgeon Burford refers to the pleasant relations existing between the quarantine station and the city, and says that he is a thorough knowledge of the city and its people, and that he is always referred to in the kindest terms. It is true that the work has been so efficient that no disease has been introduced into the city since the station was opened.

From May 1st to November 1st all vessels from infected or suspected ports that have arrived at the station are placed in the South Atlantic and are kept in the station for a period of fourteen days, and on their return here are thoroughly examined and given a practice to come up to the city.

Chamberlin-Johnson-DuBose Co.

Atlanta, Friday, May 15th, 1896.

The Displemishing Sale.

Ian MacLaren in his "Auld Lang Syne" describes a scene in which the parish auctioneer had placed upon the churchyard gate a poster of a "displemishing sale," written in most stilted language. One of the parishoners inquired the meaning of the phrases; whereupon Jamie Soutar answered: "Gin ye had naething but your ain words on a post naebody would look twice at it; but this kind o' langidghe solennizes ye, and makes ye think." The advertising that "solennizes" the reader may have done for Auld Lang Syne. Nowadays, however, advertising must be self-explanatory to the masses—and, indeed, do their thinking for them.

You would not think to buy certain things unless our daily advertising suggested the wisdom and economy of doing so. Just now the store is in best shape for securing great values. Every department is brilliant with qualities, styles and prices that are magnetic. There never was a breezier time in May for brisk buying. And throngs are actively taking advantage of the rare chances here.

Wool Soap
ON SHIRT WAISTS AND ALL DELICATE COLORED GOODS & SET THE COLORS BEFORE WASHING. WE STARCH AND IRON THEM PROPERLY TOO!

PHONE 610.

FURNITURE
At
20 %
Discount.

The Furniture Sale merits to capture crowds. It's a cheap and common trick for nondescript dealers to make a loud noise about a limited and meagre lot of specials. That's not our way. The entire Furniture store here is radiant, prodigious and affluent with hundreds of styles at prices that evidence the royal recklessness of our May merchandising plans. Originally the goods were marked unusually low. From those prices we deduct a clean 20 per cent discount. This, present buyers may consider a clear saving.

CARPETS Selling Carpets under AND perfect conditions. The actual MATTINGS facts fully justify the foregoing claim.

The largest space for displaying, the brightest light for seeing, the greatest variety to select from—and lowest prices. That is a combination which will compel you to examine our stock before purchasing—unless you have money to burn.

All-wool Extra Super Grain Carpets, a grand assembly of artistic styles, the dependable quality, worth 65c; made, laid and lined at **49c**.

Superb assortment Tapestry Carpets, beautiful designs, choice colorings and large range of styles, worth 85c, made, laid and lined **63c**.

Body Brussels Carpets—colorings and designs created this season by special artists, worth \$1 and \$1.25; made, laid and lined **83c**.

Our regularly \$10 Japanese Jointless Matting, 40-yard roll; now at \$7, and our regular \$6 China Matting now at **\$4.00**.

We are doing a rousing business in Floor Coverings. That's best and final testimony of all we say.

We are ready to put up Awnings. Every detail attended to promptly and cheaply.

FOES OF CRIMEChiefs of Police Adjourn Their
Convention.

LAST SESSION A BUSY ONE

The Social Evil and Its Remedy
Discussed.

POLICE TELL EXPERIENCES

Trying Hard to Eliminate Political
Jugglery.

FROM THE MANAGEMENT OF POLICE AFFAIRS

Delegates Enjoyed Themselves from
Start to Finish and Have Kind
Things to Say of Atlanta.The great convention of the chiefs
of police of the United States and Canada is
at an end, and the best known officers
of the law in the country, who have done
so much to enlighten proceedings in Atlanta
during the past week, have started
homeward.Yesterday was a day of handshakings
and farewells among the visitors and the
citizens of Atlanta who have been most in-
timately associated with them during their
stay in this city.The verdict was practically unanimous
that this was the best and most enthusias-
tic convention ever held in the history of
the association.The hospitable treatment given to the
visitors by the city officials of Atlanta
and by Chief Connolly and his men particu-
larly, was the subject of much favorable
comment among the delegates.Every one of the northern and western
visitors said that the illustration of south-
ern hospitality which they have witnessed
during the past few days more than came
up to their expectations, though they had
anticipated the most generous and cour-
teous attention from the citizens of At-
lanta.All Atlantians who attended the sessions
of the convention were very much im-
pressed with the character and intelli-
gence of the Police Union as a body. In
all of Atlanta's brilliant history as a
convention city she has seldom been priv-
ileged to have gathered within her gates
a better and stronger delegation of visit-
ers.The men who comprise the membership
of the National Association of Chiefs of
Police are strong, broad-minded men who
would do credit to any organization in
America, either in a professional or busi-
ness capacity.The next annual convention will meet
on the second Tuesday in May, 1937, at
Pittsburg. It promises to be very largely
attended.The Californians who were present at
the Atlanta convention have already start-
ed their machinery in motion to win the
convention to their state the following
year. They did a great deal of canvassing,
with this end in view, yesterday before they
took the train for their distant homes.The last day's session of the convention
was one of hard work. Resolutions look-
ing toward the diminution of crime and
the improvement of the police forces of
the United States were presented, debated
upon and passed when considered wise and
advisable.The first business which came before
the convention after President Eldridge rap-
ped for order at 10 o'clock was a change in
the by-laws of the organization whereby three
of the six members of the board of gov-
ernors should serve for two years and three
for four years. The change was recom-
mended by Chief Starkweather, of De-
troit, and was adopted.The governors who will serve the short
term are "Billie" Pinkerton, of Chicago;
Major Moore, of Washington, and Chief
Gaster, of New Orleans. For the long
term Chiefs Deitch, of Cincinnati; Mc-

Discussing the Social Evil.

Captain Wittman, of San Francisco, sug-
gested that at all future meetings of the
association delegates should come prepared
to give their personal experience in
handling the social evil question, gam-
bling, pool selling and other violations of
law which the chiefs of police have to bat-
tle with.The president suggested that there was
no necessity to wait a year, but that there
was a proper time. The convention thought
no too, so an experience meeting was held
and speeches were made by Wittman, of
San Francisco; Roehin, of Cleveland;
Deitch, of Cincinnati; Glass, of Los An-
geles; Moore, of Washington; Stark-
weather, of Detroit; Baker, of Providence;
Woodall, of Durham; Lindon, of Philadel-
phia, and Burke, of Mobile.The tramp question was also debated at
some length and Major Moore, the chief
of the Washington police, told his ex-
periences with the army when that
vast horde of vagrants swept down on
the Capital City of the Union. His re-
marks were very humorous and caught
the crowd.

Honorary Members Elected.

The following mayors and police com-
missioners were made honorary members
of the association by vote of the conven-
tion:

Los Angeles, Cal.—Mayor Frank Rader.

Cleveland, O.—Mayor H. C. Long.

Baltimore, Md.—E. M. Schreyer, John
Gill, D. C. Henderson.Cincinnati, O.—George Henshaw, Frank
Krehner, Robert J. Morgan.

Richmond, Va.—Mayor R. M. Taylor.

Norristown, Pa.—Edward Metcalf, John
H. Crankshaw.

Get Rid of Politics.

The following resolution, offered by
Chief Murphy, of Jersey City, caused
considerable debate, but was finally
adopted after an amendment by
Chief Gaster, of New Orleans. The res-
olution as approved was as follows:Whereas, it being an undisputed fact
that the police officers of this country
are not well governed or efficient police
organization can be attained where the
police officers are limited or uncertain;Resolved, That a copy of these resolu-
tions be given to the committee on this
matter when appointed.Resolved, That a committee of three
be appointed by the president to inquire
into the police departments of the cities
of the United States, and to report to the
convention which, in their opinion,
are the best laws creating police forces
for cities and towns, and report to this con-
vention at our next meeting.Resolved, That the president of the
association appoint a committee who shall
be known as the "Committee on Police
Officers," and who shall be charged with
the duty of investigating the police de-
partments of the cities of the United States,
and to report to the convention which, in
their opinion, are the best laws creating
police forces for cities and towns, and
report to this convention at our next meet-
ing.Resolved, That the president of the
association appoint a committee who shall
be known as the "Committee on Police
Officers," and who shall be charged with
the duty of investigating the police de-
partments of the cities of the United States,
and to report to the convention which, in

Gossip of the Convention.

One of the most active and popular dele-
gates to the convention was Chief Glass,
who heads the police force of Los Angeles,
Cal.Chief Glass is not only a good preserver
of law and order and a shrewd catcher of
wily criminals, but he is a good press
agent for his community as well.No delegate to the convention has pulled
the wires more energetically than he to
bring the convention in 1936 to California.

WILL THEY BE SOLD?

The Fate of the Exposition Buildings Is
Being Watched with Interest.

COUNCIL WILL ACT MONDAY

The Action of the City Will Determine
the Disposition of the Purchase
and the Future of the Park.The discussion of the exposition build-
ings purchase will be the most important fea-
ture of the session of council Monday after-
noon, and the result of the action of that
body is naturally watched with much in-
terest by the friends of the movement and
those citizens who have subscribed to the
purchase fund.Since the purchase problem was consid-
ered by council, many changes have taken
place in the situation, and the matter is
now being watched with much interest.The question of the purchase of the ex-
position buildings was taken up at the
last meeting, the question of ownership
had never been raised, and no one
thought there was any possibility of de-
feat in this line.But since the matter of ownership has
arisen and the opinion of the city attorney,
the question of the purchase of the ex-
position buildings was taken up at the
last meeting, the question of ownership
had never been raised, and no one
thought there was any possibility of de-
feat in this line.The question of the purchase of the ex-

THE PASSING THROUG.

J. W. Morrow, of Nebraska, was in At-
lanta yesterday on his way to Tallapoosa,
where he expects to settle. He says that
there is a burning desire among the west-
ern people to come south.You will see 1,000,000 people move from
the west to the south in the next ten
years, he said. "Every month increases
the fever to move. The south has a cli-
mate, soil, season and products which at-
tract any sensible man. Just as fast as
arrangements can be made the farmers
and mechanics up there will sell out and
come down here."A small boy smoking a cigarette and
riding a wheel was scurrying along Wall
street toward Peachtree yesterday. The
cigarette needed attention and of course
received it, while the bike took care of
itself. Pedestrians did the same thing.A mule attached to a dray was moving
slowly along Peachtree toward the rail-
road crossing.The discussion of the exposition build-
ings purchase will be the most important fea-
ture of the session of council Monday after-
noon, and the result of the action of that
body is naturally watched with much in-
terest by the friends of the movement and

TALKED OF MISSIONS

Methodist Conference in Session in
Atlanta Yesterday.

MANY ABLE PAPERS READ

Session Will Last for Two Days
Longer—Full Details of the Day's
Doings.The missionary conference, which is to
last two days, opened yesterday morning
at the First Methodist church and con-
tinued through the day with a noon re-
cess.The north and south Atlanta districts
participated in the convention, and Dr.
J. W. Heidt and W. J. Cook presided over
the meeting. For some time past it has
been seen that something must be done to
awake interest in missionary work and the
object of the convention is to bring about
that awakening. Missionary work in all
fields was discussed, some able talks made
and excellently prepared papers read.About fifty of the most prominent mis-
sionaries were present and a few ladies were
in attendance.

HE WILL TAKE MACK

Superintendent W. O. Connor, of Insti-
tute for the Deaf, Wants Him.

WRITES OF THE STRANGE CASE

Has Decided at Last To Take The Boy.
Writes an Interesting Card About
The Little Fellow.

Superintendent W. O. Connor, of the
Georgia school for the deaf at Cave Spring,
says he will accept little Mack Woodside
as an inmate of that institution.

He has been interested in the case for
five years and agrees with the theory
set forth in The Constitution that the boy
is not morally responsible for his acts,
although he is perfectly sound mentally.

This results from an utter lack of train-
ing, and Superintendent Connor is satisfied
that it can be remedied at Cave Spring
in a reasonable length of time. He has
paid several visits to the boy, and in a com-
munication which he sent to The Constitu-
tion yesterday he gives some interesting
information concerning the boy.

Mack Woodside is still at large, making
his headquarters at the police station. He
becomes more and more troublesome every
day and torments the officers in a terrible
manner. He stole Patrolman Terry's pistol
Wednesday afternoon and sold it for a
nickel. How he conducted the negotiation
is a mystery, as he cannot speak. After
disposing of the pistol he returned to po-
lice headquarters exhibiting his nickel with
a great deal of glee.

The boy spends nearly all his time
around police headquarters and worries
the officers and others greatly. Judge An-
drew Calhoun, whose office is haunted every-
day by the little fellow, is getting nearly
tired of the depredations of the young out-
law and is anxious to have some disposition
made of him.

"Something must be done with him,"
said the judge yesterday morning. "He is
getting so troublesome that we cannot
put up with him. It is a hard case to
settle. It won't do any good to send the
boy to the stockade, because he has no
conception of what such punishment
means. In fact, that would be as bad
a thing as we could do with him. He would
come out at the end of the term worse
than when he went in."

Many theories as to the manner in which
the boy should be treated have been ad-
vanced to The Constitution, prominent
court officials believe the boy can be taught
by means of whipping.

"If he was whipped every time he did a
wrong thing," said this gentleman, "he
would remember it and would learn not to
repeat the action again. Whipping would
do the work. It might take a great deal
of it, but would accomplish the purpose."

According to Mr. Connor's letter to The
Constitution, Mack Woodside may be re-
ceived in the institution at Cave Spring
at any time his mother consents to his
removal. He says in his communication
that, by Mr. Adams, who read the article
in Sunday's Constitution on Mack Wood-
side, and I think he is about correct when
he says, in effect, that the boy's conduct is
caused from lack of training. Of course
he can have no idea of right and wrong
in his present untrained condition. I doubt
if the mother has taught him to throw
himself in the street and kick as he does,
or rather than to be a trifle more con-
trolled in a fit of real passion and some kind-
hearted person, who has seen the boy, has
concluded that that was a
good way to get it, and the mother acquiesced.

Mr. Adams, however, has fallen into an
unfortunate error. He has taken the boy
superintendent of the deaf and dumb in-
stitute has refused to grant admission
to the little fellow, and he has been ac-
quainted with Mack Woodside something
over five years. He has never seen the boy
in his life. The first time I saw him he
had a light chain locked around his
ankle, the other end of which was sup-
ported to the floor. His mother said she
had to leave him in that position, as she
could keep him. On the 27th day of June,
1894, application was made in form by
Mrs. Woodside for admission into the
institution, and she was notified to send
the boy at the opening of the next term,
September, provided he could care for
himself in the sense that other children
do. It is similar case for admission. This
being strictly a special school for the edu-
cation of those persons who are able to
receive instruction in the public schools,
and who will see that the children are
to children are received who require spe-
cial attention, as the state ap-
propriates no money for this class of
children. I notified Mrs. Woodside at
the proper time I notified Mrs. Woodside
that the date of the opening of the next
term was September 1st. Again in the
summer of 1895 I did the same thing. The
mother replied that she preferred to keep
him at home a while longer.

Several weeks ago I visited the boy,
who was then in confinement in the sta-
tion house, and from his appearance
thought there would be no hope of his
educating him. We never undertake to
determine the mental age of a boy
or girl, however, without giving him a
real actual proving trial. The child be-
comes, always giving the child the benefit
of the doubt. I spent nearly a day in
Atlanta trying to determine the mental
age of the boy, but did not succeed.
We have two girls in school from the
one from the orphanage and the other
from the home for the Friendless,
which places them in the institution.
I had several interviews with Mrs.
Woodside, who was very kind and con-
siderate of her boy and without whose consent
he cannot be taken to school, and she did
not seem willing for him to come. As it
was late in the term—only about a month
remaining—I did not urge the matter
in summing up, you will see that instead
of refusing admission to this boy, we
have for some time been trying to get
him into the school.

"When we hear of a deaf child at once
where we invariably go to work at once
trying to get the parents to avail them-
selves of the benefits of what we estab-
lished by the state. We have no disposi-
tion to refuse admission to any child at
the proper time that is entitled to ad-
mission, and could not do so if we had the
disposition."

Thanking you in advance for this op-
portunity of throwing light on the Mack
Woodside question, I am, very truly,
Yours,
W. O. CONNOR, Superintendent.

The nature of the school is shown by
the following extracts from its prospec-
tus:

"As its name implies, this is strictly a
school for the education of deaf persons,
and in no sense an asylum, as many are
pleased to term it; neither is it a charitable
institution, any more than the schools at
Athens and at Dahlgren. The school for
Technology and the school for the deaf
are charitable institutions; a public school,
pure and simple, and was established for

DEBS ON HIS ORDER

He Says That It Is Growing All Over
the South.

HE BOYCOTTS THE PULLMANS

Does No One Any Harm and Gratifies
Himself, He States—Talks of the
Labor Situation.

Eugene V. Debs still has a boycott on
against the Pullman cars. However, it is
just an individual boycott. Members of
his organization are free to ride in Pull-
man cars if they see fit.

"It does not hurt Pullman, and it does
give me satisfaction," said the president of
the American Railway Union yesterday.
He finds it uncomfortable to patronize
the Pullman company. Here in the
south, where the jumps between towns are
long he must either travel by day or lose
sleep. For ten days before he came to At-
lanta he had been traveling by night and
losing sleep. He said that he is not pre-
paring for a strike on the Great Northern,
as has been reported. Strikes are bad
things, he said. He would rather work
than strike. Yesterday afternoon he left
for Macon, where he was announced to
spend last night.

A representative of The Constitution asked
him how this order was getting on in the
south. "It is growing steadily," he replied.
"When I was down in the winter Macon
had only eleven members. Now we have
30 there. We have the order in Georgia
and they are building up the union all
the time."

The situation over the Pullman cars is peace-
ful, said Debs. He said that he is not pre-
paring for a strike on the Great Northern,
as has been reported. Strikes are bad
things, he said. He would rather work
than strike. Yesterday afternoon he left
for Macon, where he was announced to
spend last night.

A representative of The Constitution asked
him how this order was getting on in the
south. "It is growing steadily," he replied.

MISS CLARA BARTON.
What She Says of an American In-
vention.
Constantinople, February 21, 1896.—"When
in London the other day I received two
packets from the United States Em-
bassy containing an Electropole. Today I
received your kind letter and The Jour-
nal."

Allow me to thank you heartily and
gratefully for the splendid little machine.
As you remember, I am not altogether
a stranger to the virtues of the Electro-
pole (saw its work in Jacksonville, Fla.,
in 1888), and I will take great pleasure
in passing your offering to afflicted humanity
through my medical staff. I feel assured
the physicians will avail themselves of
such valuable aid. Very sincerely yours,
CLARA BARTON.

Where shall we spend the
SUMMER?
Lookout Inn, Lookout Mountain, Tenn.,
the Palace Hotel of the South.

Offers inducements superior to any other
resort in the south. Here the atmosphere
is always cool and clear. The nights are
perfect. There are no mosquitoes, and
malaria is absolutely unknown. The scenery
is the most beautiful in the world, as pro-
nounced by the historian Bancroft, the great
traveler Stanley and a host of others. Lookout
Inn is a beautiful gem of a place, built
of the famous old red sand stone and
wood, finished in the interior throughout
in the most expensive manner. The
tables are from the celebrated used on
Spring, the purest in the world. This his-
toric section of the city. Services are
given at 5:30 a. m. and 8 p. m. and the public
is cordially invited to attend.

TO SPAN THE STREAM

County and City Officials Desire to Bridge
Peachtree Creek at the River.

TAKE A DAY OFF IN THE WOODS

A Large Party of Officials Make a
Tally-Ho Trip to the Chattahoo-
chee Pumping Station.

A number of city and county officials
spent the day yesterday on the banks of
the Chattahoochee.

The party left the city early yesterday
morning in a tally-ho and returned late
in the afternoon. The trip was two-fold
in purpose, and business was intermingled
with pleasure.

The object of the trip out to the river,
however, was to make an inspection of the
waterworks pumping station and see what
arrangements could be made for building
a bridge across Peachtree creek where it
empties its waters into the Chattahoochee.

For a number of years there has been
need of a bridge at this point, as people on
this side of the river could not cross the
creek, which, at the mouth, is wide and
deep. But since the location of the pump-
ing station at the place, the demand has
been great, and both the city and the county
may now join in a bridge which will
span the turbulent and troublesome waters
of the creek.

The day on the river banks was spent
pleasantly. Mr. Thomas Moore, who lives
near the river, invited the party to dine
with him, and the officials were entertained
in a royal manner by their hospitable host.

A tour of the pumping station was made,
after which the party made a trip down to
the river at the point where Peachtree
creek empties. The creek is quite wide at
this point, and temporary logs and gaus-
sage have all been washed away, making
it impossible to cross the creek and con-
tinue along the river bank.

There is a road leading to the creek,
and this would be used a great deal if
a suitable crossing could be provided. The
probable result of the trip made by the
officials yesterday will be the building of a
strong and substantial bridge over the
creek at its mouth.

The Bridge is Badly Needed.
Peachtree creek, at the point where it
empties into the river, runs along the
property of the waterworks, and employees
and citizens living in that vicinity have
urged the city for a long time to place a
suitable crossing at the place.

Other improvements will likely be made
at the pumping station, and the property
of both the city and the county will be
improved. The building of the bridge is
said to be a necessity, and work will prob-
ably be started at an early day.

Who Composed the Party.
There were fifteen in the party who went
out yesterday. They were as follows:
County Commissioners Forrest Adair,
Walter R. Brown and Joseph Thompson;
County Attorney Luther Z. Rosser and
Clark of the Board of Public Works, re-
presented by Superintendent of the Water
Board Woodward, Secretary Brown, Mr.
Finley, Judge Hillier, Messrs. Howell, Tol-
bert, Erwin, Martin and Sims.

The party left the Kimball house at 10
o'clock in the morning in a tally-ho, and the
river was reached over the Howell's Ferry
road.

Everything was found to be in good con-
dition at the pumping station, and the
machinery of the waterworks, and some
improvements were suggested by the mem-
bers of the water board, and it is expected
several additions will be made.

PREPARING TO VOTE.
The Registration List is Daily Re-
ceiving New Names.
Nearly one hundred voters registered
for the approaching June pri-
mary and the total number of qualified
voters has almost reached 7,500.

"At the present rate the names are com-
ing in," said Mr. Stewart yesterday, "a
very large vote will be polled on June
6th."

"We are registering about one hundred
names each day, and the rate shows no
sign of a decrease. I think the lists will
show very heavy registration when the
end is reached."

THE MINUTES ARE OUT.
Quick Piece of Work Done for the
Baptists.
One of the quickest pieces of work that
has been turned out by an Atlanta pub-
lishing house in a long while was the
work done by the Franklin Printing Com-
pany in publishing the minutes of the
Southern Baptist convention, which
recently adjourned in Chattanooga.

The minutes, printed in a handsome and
well illustrated little volume, came from
the press of the Franklin Printing Com-
pany yesterday afternoon, and were dis-
patched by express, including today's
dispatch it ranks high.

The Constitution was handed a copy
with the completion of Dr. Lauder-
rows, the secretary, under whose direction
the work was rushed through with such
despatch. The book contains 120 pages
and contains the full official report of
each day's proceedings, including today's
Monday. The work done on that day,
which was the last of the convention, is
given in full, every report read at the
meeting, together with a full list of the
delegates present, are presented. In
short, the book contains a full account of
everything of interest that is in any way
connected with the convention.

A NOTABLE REVIVAL.
Large Crowds Attend the Service at
St. Paul's Church.
With increasing interest the revival
services at St. Paul's church continue. Dur-
ing the week closed last night there have
been a number of conversions, and mem-
bers have been awakened to renewed
energy in reclaiming those who have gone
astray. Rev. George L. Jenkins, of the
North Alabama conference, and who is a
minister of great force and power, is as-
sisting the pastor, Rev. S. H. Dimon, in
these services. Already these meetings
have resulted in great good, and there has
been a general religious awakening in
that section of the city. Services are held
at 5:30 a. m. and 8 p. m. and the public
is cordially invited to attend.

WHERE SHALL WE SPEND THE
SUMMER?
Lookout Inn, Lookout Mountain, Tenn.,
the Palace Hotel of the South.

Offers inducements superior to any other
resort in the south. Here the atmosphere
is always cool and clear. The nights are
perfect. There are no mosquitoes, and
malaria is absolutely unknown. The scenery
is the most beautiful in the world, as pro-
nounced by the historian Bancroft, the great
traveler Stanley and a host of others. Lookout
Inn is a beautiful gem of a place, built
of the famous old red sand stone and
wood, finished in the interior throughout
in the most expensive manner. The
tables are from the celebrated used on
Spring, the purest in the world. This his-
toric section of the city. Services are
given at 5:30 a. m. and 8 p. m. and the public
is cordially invited to attend.

NO BONDSMEN YET.

MIDDLEBROOKS STILL OCCUPIES
A CELL IN THE JAIL.

A Number of Friends Called Yesterday
To See the Young Man—No New
Developments.

Hiram Middlebrooks still occupies a cell
in the county jail, as he was unable yes-
terday to furnish the bond which is nec-
essary to give him his liberty.

During the day yesterday a large num-
ber of friends called and were admitted
to see Middlebrooks. He says he is mak-
ing the best of his confinement, but is dis-
appointed in not being able to make the
required bond.

No new developments have been brought
to light in the case. Mr. Reed, the prose-
cutor, is in West Point, and has placed
the case in the hands of Attorney Luther
Z. Rosser. Middlebrooks has retained W.
H. & E. R. Black as counsel, and refused
to talk further upon his case.

The charge upon which Middlebrooks was
arrested is that of forgery, but as there
does not seem to be any grounds for that
charge, the warrant may be changed to
include the crime of larceny after trust.
Mr. Reed will probably return to the city
the latter part of this week. In the mean-
time there may be an effort made by the
friends of Middlebrooks to settle the
amount and dismiss the prosecution.

COMMISSIONERS TO MEET.
The Plans and Specifications for the
New Jail Will Be Considered.

The plans and specifications for the new
county jail will be discussed by the board
of county commissioners at the called
meeting next Saturday afternoon.

A number of architects are in the city
and they will present their plans at the
session of the board.

As the plans are being prepared in com-
petition, a very large number is expected
by the commissioners, and it will prob-
ably be decided within the next few days
which plan will be accepted.

The plans and specifications will be
referred to a special committee, and this
committee will then confer with the archi-
tects. When a report is formulated action
will be taken by the board and the contract
will be let to the lowest bidder.

Work on the new jail will be started
before fall and the structure will be
hurried to completion.

WILL MEET TONIGHT.
Young Men's Sound Money League
To Name an Executive Committee.

The Young Men's Sound Money League
will meet this evening at 8 o'clock at
the Kimball house, and will elect an ex-
ecutive committee. The league is a new
organization, and its object is to promote
sound money and to prevent the use of
falsified currency.

"I have not yet completed the execu-
tive committee," said the president, "but
I have named the members of the com-
mittee, and they will meet at 8 o'clock to-
night, and will be named and announced
at the meeting Friday night."

It is said that several resolutions will
be passed at the meeting and the campaign
for Fulton county mapped out.

If your nerves are weak, if you are all
tired out, if you have sick headaches, dys-
pepsia, or if you are troubled by impure
blood, try Hood's Sarsaparilla this season.
It will do you good.

Atlanta, Ga., Received It.
A. K. Hawkes, the famous manufacturer
of the gold medal, the highest
awards and diploma of honor from
the Cotton States and International Ex-
position for superior glass grinding and
polishing, and for the manufacture of spec-
tacles and eye glasses. This award has the
unusual distinction of being the only gold
medal awarded. This is a great victory for
Mr. Hawkes, as his competitors were from
New York and Chicago. It can now be truth-
fully said that the Hawkes' famous glasses
are the most popular and widely known
glasses in this country, and are worn in
nearly eight thousand cities and towns in
the United States.

Mr. Hawkes says he has achieved won-
derful success with his new spectacle and
eye glass frames, as they are non-rustible
in any climate and will not discolor or
corrode.

To the Asylum.
Sheriff Henry Ward of Douglas county,
stopped over several hours in Atlanta yes-
terday en route to Milledgeville, where he
went to place Andrew Staples, an insane
woman, in the asylum.

See that your blood
gets Respass' Graybeard

Excellent in every regard are the beers
of the celebrated "Inchman" Lion Brewery,
as shown by the fact that they received
the highest award at the Cotton States
and International Exposition, St. Louis,
1904. They are brewed in the most
perfect manner, and are of the highest
quality. They are sold in all parts of
the country, and are highly recommended
by all who have tried them.

Thousands have tested the great build-
ing-up power of Hood's Sarsaparilla,
and have found it a strength, vigor and
vitality in its use.

bama Street.

MISS CLARA BARTON.
What She Says of an American In-
vention.
Constantinople, February 21, 1896.—"When
in London the other day I received two
packets from the United States Em-
bassy containing an Electropole. Today I
received your kind letter and The Jour-
nal."

Allow me to thank you heartily and
gratefully for the splendid little machine.
As you remember, I am not altogether
a stranger to the virtues of the Electro-
pole (saw its work in Jacksonville, Fla.,
in 1888), and I will take great pleasure
in passing your offering to afflicted humanity
through my medical staff. I feel assured
the physicians will avail themselves of
such valuable aid. Very sincerely yours,
CLARA BARTON.

private diseases, Rheumatism, Urinary
Organs, etc. Send for illustrated circular.

POPULARITY DOES NOT COME WITHOUT CAUSE. Nothing but
the standard quality that is invariably maintained in Columbia
Bicycles could secure such indorsement as comes unsought to Columbias.

EVERYBODY'S
CHOICE When the New York Journal offered the choice of the ten leading
magazines of bicycles recently to the ten winners of a guessing contest,
every one of the ten selected Columbias. And The Journal bought
ten Columbias at \$500 each.

TIFFANY'S
CHOICE When Tiffany & Co., the famous jewelers, desired to make an experiment
with elaborate decoration of bicycles, they of course first selected a Colum-
bia—and paid \$100 for it. They have decorated other bicycles since, but
Columbia was first choice.

CHOSEN BY THE
GOVERNMENT When the United States Government recently asked for proposals for
furnishing bicycles, it received bids from other makers of from \$50
to \$85; and our bid of \$100 each for Columbias, their invaluable price.
And the experts selected Columbias, as in their opinion Columbias were worth every dollar of
the price asked.

If you are able to pay \$500 for a bicycle, will you be content
with any but a Columbia?

For Sale by Green & Mathews, the
Property of John M. Green, "The
Heights," East Point, Ga.

This property is situated on the western
side of the railroad, within the corporate
limits of the town of East Point, known as
"The Heights," and commands a fine view
of the town and surrounding country. It is
within three minutes' walk of the post-
office and depot, and is a most desirable
location for a public school building, or
one of the handsome schoolhouses in the
country.

Four of these buildings front Cheney
street, two front Ware street and two
front on Florence avenue. They contain
from six to nine rooms each, are all new,
commodious and convenient with plenty of
ground and broad streets, six miles from
the city of Atlanta. Double hourly trains.
Five cents fare. Commuters' tickets.

You have the best of water. Deep wells,
some going through rock to a depth of
sixty-five feet; in fact you have all the
accommodations and conveniences of the
city and are free from the dirt,
